

REMARKS

Preliminary to the calculation of the filing fees and the examination of the above-identified application, applicant has proposed drawing corrections to Fig. 2 to label it as prior art, amended the specification to add references to related applications and to implement corrections to the specification which were made in the parent application, canceled claims 1-6 and 8-14 and provided new claims 15-30. Upon entry of this amendment, claims 7 and 15-30 will be pending.

The Drawings

A proposed drawing correction designating Fig. 2 as prior art is enclosed herewith. The specification has been amended to remove all references to Fig. 6 and, where appropriate, replace these references with references to Figs. 6A and 6B.

The Specification

The applicant has amended the detailed description of Fig. 2 to refer to it as "prior art." Also, a brief description and detailed description of Fig. 1 has been added. The above-mentioned amendments have now properly referenced Figs. 6A and 6B and a brief description of Figs. 6A and 6B has been added.

All references to "biljart table" have been deleted from the specification and claims since this term is a foreign language equivalent of "billiard table." No reference to "biljart table" was found in the Abstract of the Disclosure.

At page 5, line 5, "tailed" has been corrected to "tailored." At page 6, line 5, "a inertia" has been corrected to "an inertia." At page 10, line 31, "had" has been corrected to "hand." The period after "11" on page 14, line 4 has been deleted.

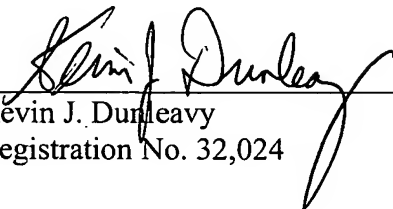

Favorable consideration, entry of the preliminary amendment and issuance of a Notice of Allowance is requested.
